

Featured Vendors

Product Offerings

Pneumatics

MAC Valves- valves, pneumatic controls
PHD, Inc.- cylinders, actuators, and slides, grippers and clamps
Camozzi- pneumatic controls, cylinders, actuators and slides, air preparation, fittings and tubing
IMI-Bimba- cylinders, actuators, slides, air preparation, grippers and clamps, fittings and tubing
 Wilkerson- air preparation, fittings and tubing

Pneumatic Accessories

Allenair Corporation- pneumatic controls, cylinders, actuators and slides
 AW-Lake- pneumatic accessories
 Canfield Connector- pneumatic accessories
 Hanna Corporation- cylinders, actuators, and slides
 Legris- fittings and tubing
 Monnier- air preparation
 Spartan Scientific- valves, pneumatic controls
 Springville Manufacturing- cylinders, actuators, and slides
 Starcyl- cylinders, actuators, and slides
 Suburban Manufacturing, Inc.- air preparation
 TRD Manufacturing- cylinders, actuators, slides

Machine Control

Advantech- PLC, IO Input and Output, electrical cabinet components, HMI
Wago- PLC, IO Input and Output, electrical cabinet components, HMI
Beijer- PLC, IO Input and Output, electrical cabinet components, HMI
IDEC- PLC, IO Input and Output, electrical cabinet components, HMI
 Saginaw- electrical cabinet components
 WEG- electrical cabinet components

Motion Control

Antaira- motion accessories
PHD, Inc.- actuators and slides
IMI-Bimba- actuators and slides, motion accessories
Wago- motion accessories
 Applied Motion- motion controllers, motors, drives, gear reducers
 IDEC- motion accessories
 Kollmorgen- motors, drives, actuators and slides
 Yamaha- motion controllers, motors, drives, actuators and slides, gear reducers

Robotics

ABB- scara, delta, collaborative, six axis, autonomous mobile robots
MiR- autonomous mobile robots
PHD, Inc.- end of arm tooling
 ROEQ- robotic accessories
 Swivellink- robotic accessories
 Yamaha Robotics- cartesian, scara

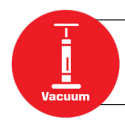

Mobile
MAC Valves- pneumatic controls and valves
SICK- sensors and transducers
AW-Lake- sensors and transducers
COBO- controllers, displays, keypads, wire harness
Elobau- mobile accessories
Gems Sensors- sensors and transducers
HED- controllers, displays, keypads, radio remotes
Magnetek- controllers, keypads, radio remotes
Scanreco- controllers, radio remotes
Suburban Manufacturing- cable management

Sensors and Safety
SICK- sensors, safety, vision, barcode
AW-Link- sensors
Canfield Connector- sensors
Gems Sensors- sensors
Paquin Sensors- sensors
Swivellink- safety

Hydraulics
PHD, Inc.- actuators
AW-Lake- switches and transducers
Hanna Corporation- actuators
Nachi- hydraulic valves
Starcyl- actuators

Vacuum
Piab- venturi, vacuum accessories
Joulin- venturi

Vision
SICK- cameras and accessories
Matrox- cameras and accessories
Teledyne DALSA- cameras and accessories
Zebra- cameras and accessories

Extrusions and Enclosures
80/20- aluminum extrusions

Networking and IoT
Antaira- industrial ethernet, ethernet media converters, industrial wireless, serial communication
Urban IO- cloud services
Wago- industrial ethernet, ethernet media converters, serial communication
Secomea- cloud services

Full Manufacturer List

80/20

ABB

Advantech

Allenair Corporation

Antaira

Applied Motion

AW-Lake

Beijer

Camozzi

Canfield Connector

COBO

Elobau

Gems Sensors

Hanna Corporation

HED

IDEC

IMI-Bimba

Joulin

Kollmorgen

Legris

MAC Valves

Magnetek

Matrox

MiR

Monnier

Nachi

Paquin Sensors

PHD, Inc.

Piab

ROEQ

Saginaw

Scanreco

Secomea

SICK

Spartan Scientific

Springville Manufacturing

Starcyl

Suburban Manufacturing

Swivellink

Teledyne DALSA

TRD Manufacturing

Urban IO

Wago

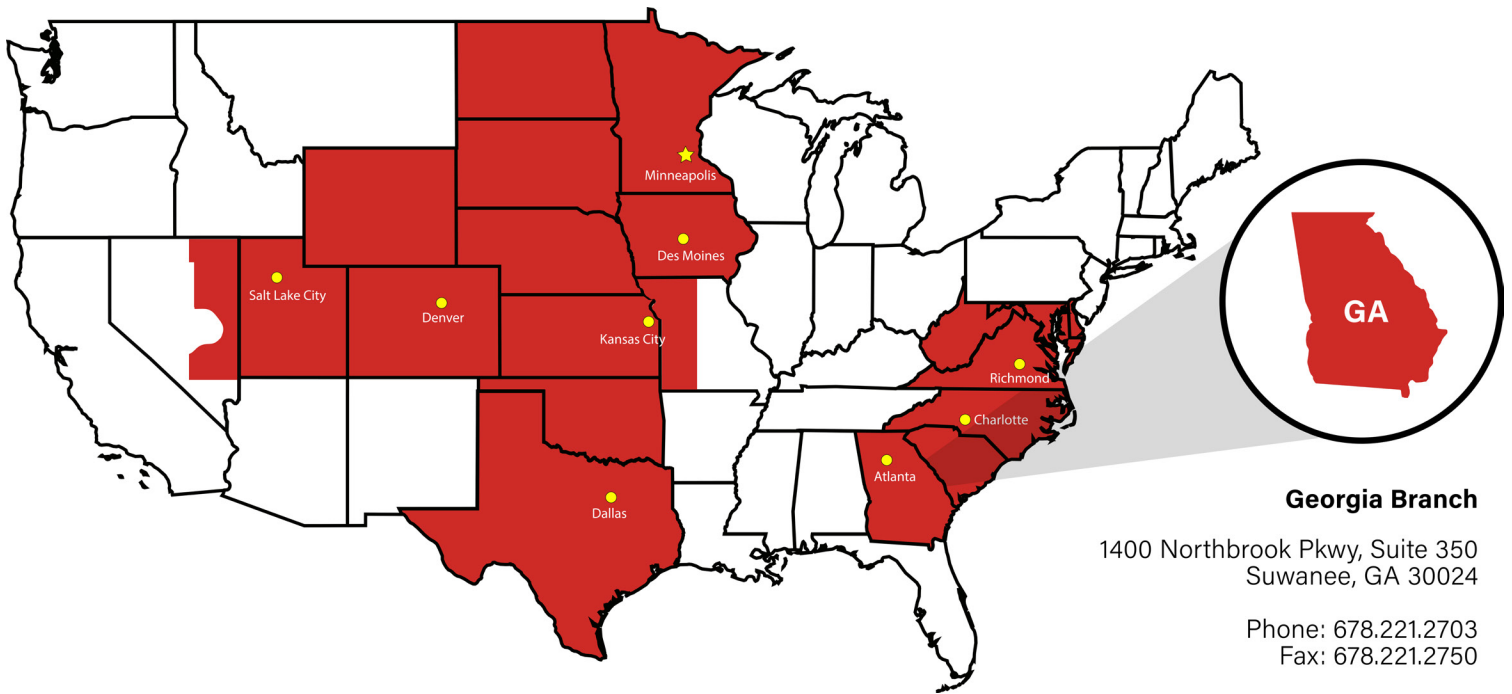

WEG

Wilkerson

Yamaha Robotics

Zebra

Georgia Branch

1400 Northbrook Pkwy, Suite 350
Suwanee, GA 30024

Fax: 678.221.2750

Value-Add

The Value-Add Department can partially or completely assemble components from a bill of customer approved materials into sub-assemblies (kits). This allows customers to order one item, tested and ready to install with one purchase order.

Hartfiel Automation's Value-Add team provide much more than just assembly and light manufacturing support - they bring the experience to quickly and efficiently design, test, and deliver the best solution for your assets.

ATLAS Controls Engineering

Hartfiel Automation's ATLAS Controls Engineering Team focuses on partnering with customers to achieve success in their equipment design and manufacturing.

Starting with consultation in the selection and specification of components, through on-site training and start-up assistance—our team is committed to providing the engineering support required to create the hi-tech equipment of today's manufacturing marketplace.

Customer Profit Reinforcement (CPR®)

The Hartfiel Automation team uses their trademarked CPR process to uncover and document savings and profit opportunities. The program's purpose is to maximize customer profitability through an inspection of your components and processes, identifying savings opportunities, recommending streamlining - leading to real savings.

Companies both small and large have benefited from this program and have experienced increased profitability.
