

Southeast and Mid-Atlantic Branch

Serving: VA, NC, SC, MD, DC, WV, DE

Featured Vendors

Product Offerings

Pneumatics

MAC Valves- valves, pneumatic controls
PHD, Inc.- cylinders, actuators, slides, grippers and clamps
IMI-Bimba- cylinders, actuators, slides, air preparation, grippers and clamps, fittings and clamps
Camozzi- pneumatic controls, cylinders, actuators, slides, air preparation, fittings and tubing
Lehigh- cylinders, actuators, slides
Tolomatic- cylinders, actuators, slides
TRD Manufacturing- cylinders, actuators, slides
Wilkerson- air preparation, fittings and tubing

Pneumatic Accessories

Ace Controls- pneumatic accessories
Piab- pneumatic controls, grippers and clamps, fittings and tubing
Allenair Corporation- pneumatic controls, cylinders, actuators, slides
AW-Lake- pneumatic accessories
Colder Products Company- fittings and tubing
ESP (Engineered Speciality Products)- pneumatic accessories
Freelin Wade- fittings and tubing
Legris- fittings and tubing
Monnier- air preparation
Pneumadyne- fittings and tubing
Pressure Connections- fittings and tubing
Spartan Scientific- valves, pneumatic controls
Springville Manufacturing- cylinders, actuators, slides
Suburban Manufacturing- air preparation
UCI- valves, pneumatic controls
Watts-Parker- air preparation, fittings and tubing

Machine Control

Advantech- PLC, IO input and output, electrical cabinet components, HMI
Antaira- electrical cabinet components
Turck- PLC, IO input and output, electrical cabinet components, HMI
Wago- PLC, IO input and output, electrical cabinet components, HMI
Canfield Connector- electrical cabinet components
IDEC- PLC, IO input and output, electrical cabinet components, HMI
Panasonic- PLC, IO input and output, HMI
PULS- electrical cabinet components

Motion Control

Antaira- motion accessories
IMI-Bimba- actuators and slides
PHD, Inc.- actuators and slides
Wago- motion accessories
Applied Motion Products- motion controllers, motors, drives, actuators and slides, gear reducers
Harmonic Drive- gear reducers
Kollmorgen- motors, drives, actuators and slides
Onvio- gear reducers
PULS- motion accessories
Thomson Linear- actuators and slides, gear reducers
Tolomatic- actuators and slides
WEG- motors, drives
Yamaha- motion controllers, motors, drives, actuators and slides, gear reducers

Southeast and Mid-Atlantic Branch

Serving: VA, NC, SC, MD, DC, WV, DE

Robotics

ABB- scara. delta. collaborative, six axis, autonomous mobile robots
MiR- autonomous mobile robots
PHD, Inc.- end of arm tooling
Piab- end of arm tooling
 Comau- collaborative, six axis
 Joulin- end of arm tooling, robotic accessories
 Millibar Tool Changers- end of arm tooling, robotic accessories
 Murrplastik- robotic accessories
 ONROBOT- end of arm tooling, robotic accessories
 Robotiq- robotic accessories
 ROEQ- robotic accessories
 Swivellink- robotic accessories
 Yamaha- cartesian, scara

Mobile

MAC Valves- pneumatic controls and valves
Banner- mobile accessories
Turck- controllers, displays, wire harness, sensors and transducers
 AW-Lake- sensors and transducers
 Cobo- controllers, displays, keypads, wire harness
 Elobau- mobile accessories
 HED- controllers, displays, keypads, radio remotes
 Magnetek- controllers, keypads, radio remotes
 Scanreco- controllers, keypads, radio remotes
 Suburban Manufacturing- cable management

Sensors and Safety

Banner- sensors, safety, vision, barcode
Turck- sensors
 AW-Lake- sensors
 Canfield Connector- sensors
 Fortress- safety
 Gems Sensors- sensors
 Larco- safety
 Panasonic- sensors, safety
 Swivellink- safety

Hydraulics

PHD, Inc.- actuators
 AW-Lake- switches and transducers
 Lehigh- actuators
 Nachi- hydraulic valves
 TRD Manufacturing- actuators

Vacuum

Piab- venturi, vacuum accessories
 Joulin- venturi
 Millibar- vacuum accessories

Vision

Banner- camera and accessories
Zebra- camera and accessories
 Matrox- camera and accessories

Extrusions and Enclosures

80/20- aluminum extrusions
 Saginaw Enclosures- enclosures

Networking and IoT

Antaira- industrial ethernet, ethernet media converters, industrial wireless, serial communication
Banner- industrial wireless, cloud services
Turck- industrial ethernet, serial communication
Urban IO- cloud services
Wago- cloud services
 Secomea- industrial ethernet

Southeast and Mid-Atlantic Branch

Serving: VA, NC, SC, MD, DC, WV, DE

Full Manufacturer List

80/20
ABB
Ace Controls
Advantech
 Allenair Corporation
Antaira
 Applied Motion Products
 AW-Lake
Banner
IMI-Bimba
Camozzi
 Canfield Connector
 Cobo
 Colder Products Company
 Comau
 Elobau
 ESP
 Fortress
 Freelin Wade
 Gems Sensors
 Harmonic Drive
 HED
 IDEC
 Joulin
 Kollmorgen
 Larco
 Legris
 Lehigh
MAC Valves
 Magnetek
 Matrox
 Millibar Tool Changers
MiR
 Monnier

Murrplastik
 Nachi
 ONROBOT
 Onvio
 Panasonic
PHD, Inc.
Piab
 Pneumadyne
 Pressure Connections
 PULS
 Robotiq
 ROEQ
 Saginaw Enclosures (SCE)
 Scanreco
 Secomea
 Spartan Scientific
 Springville Manufacturing
 Suburban Manufacturing
 Swivellink
 Thomson Linear
 Tolomatic
 TRD Manufacturing
Turck
 UCI
Urban IO
Wago
 Watts-Parker
 WEG
 Wilkerson
 Yamaha
Zebra

Value-Add

The Value-Add Department can partially or completely assemble components from a bill of customer approved materials into sub-assemblies (kits). This allows customers to order one item, tested and ready to install with one purchase order.

Hartfiel Automation's Value-Add team provide much more than just assembly and light manufacturing support - they bring the experience to quickly and efficiently design, test, and deliver the best solution for your assets.

ATLAS Controls Engineering

Hartfiel Automation's ATLAS Controls Engineering Team focuses on partnering with customers to achieve success in their equipment design and manufacturing.

Starting with consultation in the selection and specification of components, through on-site training and start-up assistance—our team is committed to providing the engineering support required to create the hi-tech equipment of today's manufacturing marketplace.

Customer Profit Reinforcement (CPR®)

The Hartfiel Automation team uses their trademarked CPR process to uncover and document savings and profit opportunities. The program's purpose is to maximize customer profitability through an inspection of your components and processes, identifying savings opportunities, recommending streamlining - leading to real savings.

Companies both small and large have benefited from this program and have experienced increased profitability.
